

GRASS ROOTS

Begin your green makeover from the bottom up, by installing eco-friendly and super-strong bamboo flooring. This fast-growing grass can be harvested over and over from the same root, meaning it's economical as well as beautiful. The floorboards are toxin-free and coated with water-based, solvent-free aluminium oxide.

Fabric on couch (from English Eccentrics range Abyla col. Beige HF8009), R735 per metre, from Home Fabrics. Recycled wine bottle vase, R60, Dorp. **Green logs**, R3,699 (small), R4,300 (medium), Modern Garden Company. Coffee cup, *stylist's own*. Big floor cushion, R1,425, Lula Fabrics. Teragren bamboo floor, *price on request*, HFF Architectural Finishes. **Suede square notebook**, R145, Louise Hennigs at Origin. Hemp cushion, R260, Hemporium.

Good Vibrations

Raise your consciousness and turn eco-living into an art form. Repeat after us: Reduce, reuse, recycle. By JEANNE BOTES
